

Virtual Mission Trip

What's the idea?

To deploy families and students into the community (both physically and virtually) in order to share the love of Christ with others

How are we going to do that?

We are going to focus on people meeting 1 or more of the 3 types of needs

1. Spiritual needs

- Write out or video your story ([use this suggested outline](#))
- Share the Gospel with someone
 - You can do this by sharing your story in either video or written format
 - You can engage with someone online through email, text, DM, etc.
 - Call someone and share the Gospel with them
- Text/message/Dm 3-5 friends and ask them what you can pray for them about and then actually pray
- Disciple a younger believer- ask someone to spend a few days interacting with a specific passage of scripture with you each day.

2. Emotional needs

- Find someone who is lonely and/or hurting and love them (from an appropriate distance of course)
 - You can leave handwritten notes on someones front door
 - You can leave handmade food for someone
 - You can call and talk to someone on the phone
 - It's really whatever you can do to let others that you are thinking of them

3. Physical needs

- What needs are there in our community that we can meet and still be at an appropriate social distance

- Who can you serve?
 - First responders
 - Hospital staff
 - Neighbors
 - Friends
 - Family

What's the schedule going to look like?

10am Welcome and Worship together on Live Stream

10:30am Explanation of Mission Trip Online/mission mobilization training

11am Deploy for ministry

7pm Worship together/Praise reports on Live Stream

How do we know what people are doing?

- Create a simple form that people fill out what they have done that day
- Share the reports from those forms on the evening live stream
